WHY IS IT?

Some find work where some find rest,
And so the weary world goes on
I sometimes wonder which is best.
The answer comes when life is gone.

Some eyes sleep when some eyes wake,
And so the dreary night hours go.
Some hearts beat where some hearts break.
I often wonder why 'tis so

Some will faint where some will fight,
Some love the tent and some the field.
I often wonder who are right—
The ones who strive or those who yield.

Some hands fold where other hands
Are lifted bravely in the strife,
And so through ages and through lands
Move on the two extremes of life

Some feet halt where some feet tread
In tireless march a thorny way,
Some struggle on where some have fled,
Some seek when others shun the fray.

Some swords rust where others clash;
Some fall back where some move on;
Some flags furl where others flash
Until the battle has been won

Some sleep on while others keep
The vigils of the true and brave.
They will not rest till roses creep
Around their names above a grave
—Father Ryan.

HOW HE WORKED A MINE.

The Sheep Mountaineer Enlightens the College Bred Inquirer.

"How do we work a mine?" exclaimed the Sheep mountaineer "Well, you unsophisticated, undeveloped outcropping of the land of the rising sun, I'll proceed to enlighten your beclouded college bred understanding."

The college bred young man from the land of the rising sun sat down on a $300 to the ton chunk of ore and turned his undivided attention to listening to a discourse on mineralogy.

"We first prospect around until we find a tunnel in on the jugular vein and a pile of ore on the dump. Then if the other feller ain't looking we jump. Then we proceed to sink a shaft on the float, gather all the gangue and sack it, being careful to preserve technical phrases in mineralogical science in so doing. Then we prospect the stockholders with an assessment, and if they don't come down put in a blast At this point we call the roll, grab a No 4 warranted not to rip, wear, tear, ravel, cut or run down at the heel ragical, tragical, irrasive smelter and run up our stack. If the other feller holds the best hand, the stack will diminish, and we consequently drift for a pay streak If we don't get through drifting by fall, it's the first thing we go at in the spring We now concentrate our efforts, and if the silver panned out don't have the eagle stamped on it we sample the outcropping in every saloon within a radius of ten miles and take a fresh chew of tobacco Then we get to work in earnest, salt the dump and go east and sell all the stock we can We return, renew our grub pile, pack it into the cabin and wait for spring to open and the snow to go off During this period we amuse ourselves playing seven up for the drinks We then import a mining and civil engineer, run a few levels, crosscut for another assessment, get it, cave in the shaft and abandon the property. Then"— The Sheep mountaineer paused for a moment to catch his breath, but the moment was fatal to his learned discourse, for the college bred young man from the land of the rising sun feebly reached for his pick, staggered slowly to his feet, looked wildly through the limpid atmosphere toward the summit of Sheep mountain and disappeared behind the giant outcroppings of the Big Eliza lode —Lump City Miner.

How to Make a New Face.

Skin removing for beautifying purposes is having a great vogue among the women who can afford it. At present the price for making over the face of a woman under 50 is $50. An older subject who is greatly wrinkled has to pay $100. The operation confines one to her room for five days and is somewhat painful, but not unbearably so, as the skin removing paste contains cocaine to numb the surface it rests upon An odd thing is that if you have your wrinkles removed before you are really an old woman they will come again as you advance to the wrinkled age, but if you have them removed after you are as wrinkled as you are ever likely to be they do not return And a danger of the operation, so far as its complete success goes, is that you will move your face while the paste is getting in its deadly work If you do a wrinkle forms and cannot be got rid of Laterally you must bear the pain with an absolutely placid countenance Even a grin is detrimental — Philadelphia Times

Ancient Ropes.

While conducting a series of tests with a 100 ton testing machine at the Yorkshire college in England, which included the testing of a steel wire rope, Professor Goodman stated that such ropes were not a modern invention, and that he had recently seen a bronze wire rope one half inch in diameter and from 20 to 30 feet long, which had been found buried in the ruins of Pompeii, and which must have been at least 1,900 years old —Philadelphia Ledger.

At the storm of Madgeburg by Tilly in 1631 this noted authority on the art of war laid down the general maxim that after a successful assault the soldiers ought to have three hours of pillage.

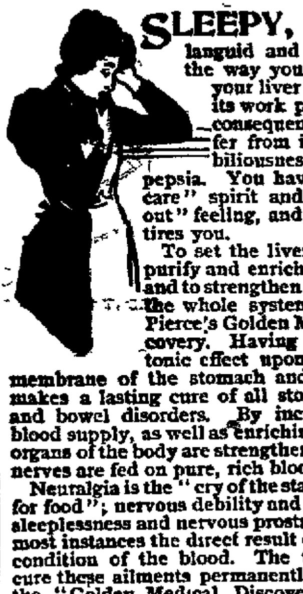
ERIE MEDICAL CO., Buffalo, N.Y.



SLEEPY, DULL,

languid and morose, is the way you feel when your liver fails to do its work properly; in consequence you suffer from indigestion, biliousness, and dyspepsia. You have a "don't care" spirit and a "played out" feeling, and everything tires you.

To set the liver in action, purify and enrich the blood, and to strengthen and vitalize the whole system, take Dr. Pierce's Golden Medical Discovery. Having a peculiar tonic effect upon the lining membrane of the stomach and bowels, it makes a lasting cure of all stomach, liver and bowel disorders. By increasing the blood supply, as well as enriching it, all the organs of the body are strengthened, and the nerves are fed on pure, rich blood.

Neuralgia is the "cry of the starved nerves for food"; nervous debility and exhaustion, sleeplessness and nervous prostration are in most instances the direct result of a starved condition of the blood. The true way to cure these ailments permanently is to take the "Golden Medical Discovery," which was discovered and prescribed by an eminent physician, Dr. R. V. Pierce, at present chief consulting physician and specialist to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. If you want a medical opinion on your case, write him. It will cost you nothing

A Book of 136 pages on "Diseases of the Digestive Organs," will be mailed to any address on receipt of postage, six cents. It contains names, addresses and reproduced photographs of a vast number of people who have been cured of dyspepsia, "liver complaint," chronic diarrhea, and kindred ailments by the use of "Golden Medical Discovery."

"LIVER COMPLAINT."

Climax, Kalamazoo Co, Mich

DR. R. V PIERCE, Buffalo, N Y

Dear Sir—A few of my symptoms were heartburn and fullness after eating, sometimes pain in my bowels and bad taste in my mouth; sometimes I was feverish, with hot flushes over skin. After taking your "Golden Medical Discovery" I was relieved of all these symptoms and I feel perfectly well Yours truly,

STRIKES AND LOCKOUTS.

Carroll D. Wright, United States Commissioner of Labor, in his annual report just published treats of the relations of capital and labor so far as they apply to strikes and lockouts. The report shows that during the past seven and a half years Illinois had the largest number of establishments affected by strikes and lockouts, there having been 10,060 strikes and 1,193 lockouts. New York is second and Pennsylvania third on the list, the former with 9,140 strikes and 723 lockouts, and the latter with 8,219 strikes and 490 lockouts.

The industries most affected by strikes in the period named were the building trades with 20,785 establishments involved, coal and coke with 5,955, clothing with 3,041, tobacco with 2,506, food preparations with 2,398, stone quarrying and cutting 1,093, metals and metallic goods with 1,834, transportation with 1,327, printing and publishing 608, boots and shoes 607, furniture 459, woolen goods 409, and brick with 406.

The total number of employes involved or thrown out of employment during the period covered by the report was 2,391,203. The total number of strikers or persons engaged in originating the strikes was 1,834,219. Lockouts were ordered in 3,853 establishments, having 271,657 employes, of whom 205,867 were thrown out of employment.

The majority of the strikes and lockouts occurred in the States of Illinois, Kansas, New York, Ohio and Pennsylvania. These five States contain 51 per cent of all the manufacturing establishments and employ 56 per cent of the capital invested in the mechanical industries of the country, taking the census of 1890 as the basis of computation.

Out of a total of 10,488 strikes for the entire country more than 56 per cent occurred in twenty-six cities. The number of establishments involved were 46,863, of which 61 per cent were in the cities of New York, Brooklyn, Chicago, Boston, Allegheny, Pittsburg, Philadelphia, St. Louis, Cincinnati, Milwaukee, Lynn, Fall River, San Francisco, Baltimore, New Haven, Newark, Cleveland, Rochester, Indianapolis, Haverhill, Minneapolis, Paterson, Buffalo, Jersey City, St. Paul and Troy.

The total wage loss to the employes in these twenty-six cities was, in round numbers, $35,000,000, while the loss to employers was something less than $20,000,000. The loss of wages to employes by the lockouts was $12,000,000 and the loss to employers about $6,000,000.

Out of the 46,863 establishments affected by strikes the employes were successful in their demand in 20,397, partially successful in 4,775 and failure followed in 21,687 establishments. Out of the 3,853 establishments having lockouts 1,883 succeeded in gaining their demands, 391 partially succeeded, and 1,553 failed.

The leading causes of the strikes was for an increase of wages, a reduction of hours and against a reduction of wages. Seven per cent were sympathetic and 4 per cent were against employment of non-union men.

The report shows that strikes not only entail a great loss on employers, but a much greater loss on workmen and that even where the strike is a success those engaged in it are losers.

THE PACIFIC ROADS.

In an interview with C. P. Huntington the *Examiner* quotes the railroad magnate as saying that the Central Pacific would not be able to pay its Government debt at maturity and if Congress will not agree to a settlement of the debt on a basis compatible with the ability of the Central Pacific to meet the obligation he has no objection to the Government taking possession of the property. He has always held that the Central Pacific cannot pay its Government debt at maturity, but he and his associates are willing to pay the last dollar of the debt if given time.

Mr. Huntington thinks that bonds to run one hundred years with interest at two per cent would be a safe, easy and fair way of letting the company settle dollar for dollar with the Government. Contrary to the general belief that the Government is in straightened circumstances, and that it was compelled to issue bonds to meet its obligations. Mr. Huntington says there is no pressing necessity for money on the part of the Government, and that there are plenty of bankers to-day who will readily take Government bonds for a hundred years at two per cent.

Mr. Huntington says if the Government should take the Union and Central Pacific roads and fix rates so as to simply operate them at cost it would place the other transcontinental roads in a serious financial predicament. However, if the Government is determined to be an implacable creditor and takes the road with its first mortgage debt he will make no opposition.

The Mormon Church by throwing its vote solid for one of the political parties can control the Legislature, elect United States Senators of its own choosing and frame laws for the government of the new State.

Cassius M. Clay, who was defeated for the nomination for Governor of Kentucky by General Hardin, urges Democrats to vote against Hardin. The *Courier-Journal* also repudiates Hardin, simply because he does not endorse the gold clause of the platform.

A Young Lady Seriously Burned by a Gasoline Explosion.

THE DURRANT TRIAL.

Dr. Graham and Professor Price on the Stand.

San Francisco, October 23.—District Attorney Barnes attacked the validity of the notes claimed to have been made by Theodore Durrant at Cooper Medical College on the afternoon of April 3d. Dr. Graham, who is a medical student and an intimate friend of Durrant, told of a sensational interview that took place between himself and the prisoner at the county jail on April 20th. Dr. Graham was accompanied to the prison by J. S. Dunnigan, a newspaper man, who was asked by Durrant to retire after he had been there a few minutes. Graham said that after Dunnigan stepped aside Durrant asked him if he would let him see his notes of Dr. Cheney's lecture, in order that he might compare them. Graham demurred at first, after which he said Durrant stated frankly to him that he had no notes of the lecture. He said that Durrant told him if he had the notes of the lecture he could easily establish a strong alibi for himself, and urged him to leave the notes with Mrs. Durrant, in order that she might bring them to him at the prison. Dr. Graham said he refused the request and never afterward visited Durrant at the prison. Dr. Graham's story was not shaken in any particular on cross-examination. While he was testifying the jurors watched Durrant closely, but he gave no sign to indicate that he considered the testimony of any importance.

Professor Thomas Price, a chemist, was called to give expert testimony on two or three points at issue. He was asked practically in what condition a man would be who had breathed illuminating gas for the length of time Durrant said he was working over the sunburners. To illustrate the question, which was hypothetical in form, a black board drawing made by Durrant himself was used, in which Durrant was shown lying at full length on a plank with his head over a sunburner, comprising twenty-four ordinary gas jets, through which gas was flowing under half force. The witness said that a man would be unconscious in five minutes—the length of time Durrant said he was engaged in working over the burners.

Professor Price was also asked about a dark stain on the sole of Rev. Gibson's shoe, which was found in the pastor's study at Emmanuel Church. The defense made a fight against the question, but the Court overruled the objection. The witness said the mark was only a grease spot. An effort was made to have the witness give the result of his examination of blood stained boards taken from the stairs and belfry of Emmanuel Church, but the Court ruled that boards could not be introduced in rebuttal.

Charles Morrison and J. P. Cooper, newspaper reporters, told of an interview they had with Durrant in the City Prison on the night of his arrest. Both witnesses testified that Durrant said he arrived at the church on April 3 between 3 and 4:30 in the afternoon. This testimony conflicts with the statement Durrant now makes to the effect that he did not arrive at the church until 5 o'clock. Morrison and Cooper, who were present at the interview between Reporter Marshall and Detective Gibson, also testified that it was untrue, as alleged by Marshall, that Gibson said he saw the print of a No. 8 or 9 shoe in the belfry near where Blanche Lamont's body was found.

Miss Carrie Cunningham, a newspaper reporter, was called. She testified that on August 18 Durrant told her that while he was repairing the sunburners he looked through a crack in the wall and saw Blanche Lamont on the second landing of the belfry. An effort was then made to obtain light on the statement said to have been written by Durrant to his attorneys, to be opened if he should be convicted and to be returned if he was acquitted. District Attorney Barnes intimated a week ago that Durrant had shown Miss Cunningham an envelope bearing such an inscription, but the Court ruled that the question was improper and this matter was dropped. Miss Cunningham was then temporarily excused and Dr. Mays was called to rebut the testimony of the preceding witnesses on the hallucination of the women and the effects of gas.

Dr. Mayo was asked what condition a man would be in if he inhaled gas from burners. The witness replied that he would be unconscious in three minutes.

Withdraws His Challenge.

New York, October 23.—Charles Rose has cabled the New York Yacht Club withdrawing his challenge for the America's cup.

Kovalev's Trial.

Sacramento, October 23.—The trial of Ivan Kovalev, an escaped convict from Siberia, who is supposed to have murdered Grocer Weber and wife in December last, will begin in the Superior court next Monday. Senator Hart and Major Anderson, who were appointed to defend Kovalev, claim that they will spring some surprises against the prosecution. It is understood that, among other things, they will attempt to show that Kovalev is the victim of a deep laid conspiracy hatched up by certain Russians in San Francisco, who were anxious to get him out of the way.

Republican Committee Meeting.

New York, October 23.—Senator T. H. Carter, Chairman, of the National Republican Committee, will probably issue a call to-day summoning the National Committee to meet at Washington early in December. General Clarkson of Iowa, a member of the National Committee, is here, and Senator Quay is coming. It is not unlikely that they will be joined by Committeemen Hobart and Fessenden and Thomas C. Platt, and that the plans of the National Committee for next year's campaign will be mapped out.

Explosion of a Gasoline Stove

Harrisburg, Pa., October 23.—Mary Maloney was badly burned about the face and hands this morning by the explosion of a gasoline stove. Miss Maloney was in the act of lighting the stove and did not know the gas was escaping. When she struck the match the explosion occurred. She was enveloped in flames, but fortunately her clothes did not catch fire. Her head and face was badly burned, the hair being almost singed to the scalp. Medical assistance was at once sent for and it is expected she will recover, but will be marked for life.

Turkish Atrocities.

Constantinople, October 23.—Advices received here from Ismid and Hendke say that Musselman attacks upon Christians there continue. Troops have been hastily dispatched to the scene of the disturbance. According to the news received here from Adena and Aleppo revolutionary agents are traversing the country and enrolling young Armenians, while quantities of arms, ammunition and dynamite are being smuggled across the frontier for their use.

The Price of Silver.

Denver, October 23.—The current quotation on silver means little or nothing, said a well known ore buyer to-day. Smelters have contracted for their bullion for months to come to big agencies in New York, and these in turn have sold to London. The market will be steady at or near the present prices until these contracts are filled, then it may go higher and it may not.

Another Murder at Round Valley.

Cahto, Cal, October 23.—Another murder has been committed as the result of the Round Valley feud. The body of Charles Felton, an Englishman, was found Sunday on his claim near Covela. He had been shot through the back. Officers claim to have a clue to his murderers.

Invited to Participate.

Baltimore, October 23.—The W. C. T. U. Convention to-day, following the lead of Miss Willard, voted to invite the Hebrews and Catholics to send delegates to the W. C. T. U. Conventions.

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

BOODLEISM NOT PARTISANISM.

Party Politics Do Not Change Men's Views.

EDITOR JOURNAL—Can you tell why it is that so many of our neighbors, including our friend around the corner take so much trouble to give a political coloring to what is being said and done with regard to county management? For instance, it has been intimated in print and on the streets that the charges of shortcoming on the part of some of our county officials are actuated by political jealousy. That the Silver party is making charges on Republican officials for partisan purposes, and for that only. To those urging such pretexts I have a few questions to ask: Does anyone believe that Mr. Hymers, as Chairman of the Board of County Commissioners, is any better or worse for being a Republican? My own opinion is that he did not think of *party* when he sold county property to Mr. Vallaincourt and put the proceeds in his own pocket some four and a half years ago. Does anyone believe that Ben Shearer is any better or worse for being a Populist or a Silver party man? My own opinion is that Mr. Shearer is an honest and conscientious County Auditor, because he is a *man*, and that the sneaks who go about the saloons telling that he is simply "interfering with county business" are overshooting the mark. Does anyone have any idea that Pete Evans is better or worse for belonging to the Republican party? My own opinion is that Assessor Evans makes a good officer because he is conscientious, and above all has due regard for his oath of office and a natural disposition to be decent.

I might go on and refer to each and all of our officials, but the foregoing is sufficient to illustrate the fact that I believe an officer is worthy because he is honorable and a boodler because he ain't.

Much is being said about Cherley Wallace and his connection with the Silver party. My opinion is that Black Wallace is just as good and no better than he was during the sixteen years that he steered the Republicans of this State.

The suggestion that certain officials are being charged with serious offenses by myself or any other, so far as I know, because they belong to the Republican party, without doubt is intended to mislead the public and screen the guilty. My opinion is that a better way for the boodlers is to plead guilty, put back the plunder and then throw themselves on the mercy of the court.

A few days ago two friends of the ring asked me why I did not stop my charges of misconduct against certain officials and *shut up*. My answer was that I would gladly lay down my arms if the guilty would disgorge and be decent. As for shutting up, I will do that, too—when I am dead.

THE WOOL QUESTION.

What a Woolgrower Says on the Subject.

EDITOR JOURNAL:—Replying to your article of the 20th I would call to your attention the fact that our Nevada wool shrinks about 70 per cent in scouring, while Australian shrinks about 50 per cent, which is the reason that the market declined only one-half to two-thirds of the duty previously imposed on foreign wool. In addition the foreign wool was skirted—that is free from all inferior wool and waste matter. The intent of the McKinley law was to afford the American grower a protection of 11 cents per pound, but owing to the difference in condition we of Nevada got protection to the amount of 6 or 7 cents only. And for the same cause with a tariff of 5 or 6 cents as you suggest, we would get actual protection of 3 or 4 cents. No wonder you say that a tariff of five cents would not increase the cost of goods to the consumer materially. I should say not. Now, I do not expect that what you or I think or say will influence legislation, but let us be honest with ourselves. If any protection is good give us a reasonable amount and let it be on the scoured wool, which is the basis of all wool purchases.

THOS NELSON.

Stone House, October 22, 1895.

The Fall Crop of Tramps.

Within the last day or two a small army of "hobos" have arrived in town. The officers made a scoop of seven or eight yesterday, but there are plenty of them left. They are practicing various methods of getting grub and a few dimes, such as striking persons on the street, petty thieving and in some cases going as far as pretending to be sick and crippled. They are a hard gang and are simply working for winter quarters. A good kick would have a beneficial effect on some of these fellows, for they are undeserving of sympathy. If roughly used they will soon make themselves scarce, but if humored they will remain in the town a terror to women and a bill of expense to the county. If one gang gets poor picking in the town the others soon find it out and give it the "go by," but if successful the next gang expects as good treatment and are really put out if they do not receive it.

Justice Court.

A half dozen or more worthies were herded up before Justice Linn yesterday on charges of vagrancy. Their names are Wm Moore, Bert Johnson, Frank Howard, John Jones, John Morgan, Thos. Williams and James Donnelly. The first four pleaded guilty, Moore being allowed time to appear for sentence, which gave him a chance to skip, the others will be sentenced to-day. The last three pleaded not guilty and will probably be tried to-day.

ABSOLUTELY PURE

THE GOLD STANDARD.

It is the Silent Thief That is Plundering the People.

EDITOR JOURNAL:—Very few people understand the real cause of the world wide depression in business and the increased poverty among the great mass of the people. The people do not yet realize that with the gold standard their debts are beyond control and the possibility of their redemption on a gold basis is gone.

The European countries have already abandoned all hope of ever paying the principal of their national debts and consider themselves very fortunate if they pay the interest. The same money power that put Europe in this condition is now operating on South America, Asia, Africa, Australia and North America, and every national bond that is now issued increases the value and demand for gold, and it little matters to the gold standard countries whether those bonds are on Mexico, China, Japan, Argentine Republic or the United States, the effect is the same. We are all competing with each other to get gold to pay interest.

The struggle has become so keen and the interest charge has become so large that it is impossible to pay it in gold or products at gold prices, and we are actually paying a large per cent of our interest with more promises to pay. It is folly to attempt to disguise the fact any longer that the gold standard is the cause of our bankrupt condition, and if we ever expect to be freed from debt slavery and keep the property of the country from passing into the hands of the Plutocrats, the gold standard will have to be abolished.

LOCAL AND GENERAL NEWS.

Items From Here, There and Everywhere.

The *Courier* says Belmont and vicinity was visited by copious showers of rain last week.

The *Reveille* says about half an inch of water fell during the rain storm of Tuesday night and Wednesday. The rain was a blessing in disguise and was very beneficial in many ways.

The Belmont *Courier* learns upon good authority that all the mining property situated in Nye county owned by Gage and Company is being negotiated for by eastern men and that a bond has been given for it.

According to statistics compiled by the *Railroad Gazette* there were 132 railroad accidents in August, of which fifty-three were collisions, seventy-one were derailments and eight due to other causes. Forty-nine people were killed and 140 injured.

Gold is being produced for six cents per ounce in Colorado and not less than $600,000 per month is being brought to daylight at that cost. Will the nice, cheerful intrinsic value idiot please pipe up again? It has been some time since we heard that variety of chucklehead peep. Come, speak up!

A small but curious indication of business activity was in the exchange of $5,000 in bills for one cent pieces made at the New York Sub-treasury one day this week by one of the large retail stores. The pennies were needed to make change, and the amount required is an indication of unusual activity in the retail trade.

George Turnes, indicted for grand larceny, and J. Sullivan and George Rougon, indicted for house breaking at Winnemucca, pleaded guilty. The *Silver State* says Turner was sentenced to three years and Sullivan and Rougan to two years each in the State prison. The latter two are mere boys, each giving his age at 17 years, but their replies to questions of Judge Cheney showed that they either did not appreciate their position or were thoroughly hardened.

WATER CASE DECIDED.

The Opinion of Judge Cheney Sustained.

The case of C. P. Rennow, et al., vs. Joseph Delmue, et al., involving the case of water in Lincoln county has been decided by the Supreme Court in favor of the plaintiffs. The case was tried by Judge Cheney at Pioche, Osborn and Rives for plaintiffs, and Sawyer for defendants. The opinion is by Bigelow, Chief Justice, Belknap and Bannifield, Justices, concurring, and it affirms the judgment of the lower court. The point of interest to the public is that if the plaintiffs had a right to the uninterrupted flow of the water, except as to enough to irrigate four acres of land, the defendants have no more right to interfere with it upon their own land, except to take that quantity, than they have upon any other land, and the decree enjoining them from so doing is unobjectionable. If the law were otherwise the right to use water would rest upon a very frail foundation.

UNCLE SAM'S NAVY.

HOW MARINES OF THE UNITED STATES ARE CARED FOR.

They Are Better Clothed and Fed Than Many Mechanics on Land—One of Them Tells a Reporter All About Their Surroundings and Treatment.

A marine was asked by a reporter to give an account of what he received in the service of Uncle Sam and how he and his fellows enjoyed themselves on board ship. The following was his story:

"The government engages marines for a period of five years. At the end of that time the marine may quit the service or he may re enlist. There is no doubt of his being able to continue in the service if he does his work honestly. There is no worry about getting out of a job with Uncle Sam. During the first and second year of the marine's service he gets in money, paid monthly, $13. The third year he gets $14, the fourth $15 and the sixth $16. If at the expiration of his first five years' service he re-enlists, he gets $18 a month, and if he enlists for a third period of five years he gets $19 a month in money.

"That is the cash part of it, but that is not half of what a man in the service gets The government clothes its men besides, and in very good style. It gives a marine a black helmet and a white one. These two are supposed to last for the period of enlistment, which is five years There is no trouble about wearing them that length of time, as they are not often used. The marine also gets one undress cap a year, which is all he needs He also gets a storm cap each year. That makes 12 articles of head gear which the government supplies him with in the course of five years, and experience shows that that is quite sufficient. It is nearly three hats a year, and there are not many workingmen who buy as many as that

"The marine also gets one full dress coat, which, as it is not frequently used, lasts five years very nicely. He receives a fatigue jacket each year and an over coat He gets eight pairs of blue trousers and eight pairs of linen ones in five years, and experience shows that if a man is careful he does not need that many. He is also supplied with 30 pairs of gloves for the five years. He gets two flannel overshirts each year. He also has two undershirts and two pairs of drawers each year. He also receives four pairs of woolen socks and four pairs of cotton socks each year. He is supplied with three pairs of shoes each year and one pair of arctic shoes each season. He receives two pairs of blankets during the term of service. He is also given 40 linen collars and three pairs of suspenders during the same time. That is the outfit in the way of clothing which the government gives each marine who joins the service. These articles are all of first class material, too, and very serviceable. There is no stint at all. There are a few articles, like neckties and handkerchiefs, which the marine must buy for himself.

"If a man is careful and economical with his clothing, he can save fully one-half of the allowance which he gets, and if he saves any part of it he is allowed so much money for the clothing he does not take. There are men in the service today who are taking only about one half of what the government allows, and at the end of their five years' service they will be paid in money for the clothes they did not take. The full value of the clothing allowed to each man for five years is $198.

"The sleeping accommodations of the men are very good. While on shore duty they live in houses and have beds, but while on shipboard they sleep in hammocks which the government furnishes. The sleeping quarters, both on land and at sea, are clean and well ventilated. The food is all that a man needs. Sometimes the commissary is not well administered, and the men complain, but they can soon get a change if they take their complaints to the proper officer. The food is very good and of sufficient variety for any one

"The men on shipboard also get all they need free, and medical attendance costs them nothing.

"Now this is the pay a man gets as a marine in the navy. He is well clothed and well fed He sleeps in a good bed or a hammock, has proper attention if he is sick and draws handsome wages in cash every month

"His work is not at all burdensome He has enough drill to keep him in the best physical condition and give his appetite a keen edge He has lots of time for amusement. On shore he can play billiards and pool free at the post, and he may enjoy all kinds of exercise in the gymnasium. The men play baseball, handball, football. They put the hammer and shot and enjoy themselves just as much as the college boys do The government also has at each post and on shipboard a library and a reading room, where the men may entertain themselves with books and papers

"Out of their wages the men must pay their barber and laundry bills, which together amount to about $2 a month.

"Besides this the marine is taken care of in his old age. If his life has been honorable, at the end of 20 years' service he may retire to the Mariners' home, where he will have a room to himself, a good table, three suits of clothes a year, tobacco free and $2 a month. If he does not retire until after he has served 30 years, he then gets three-quarters pay and three-quarters of all allowances of clothing, besides a good home and good board, for the rest of his life.

"It will be seen that Uncle Sam is not niggardly in dealing with his men If they do their duty, they receive good treatment, and are well fed and clothed and draw, all things considered, very fair pay."—New York Telegram.

Got It Mixed.

"When is a ship like a woman? When she is in stays."

"By George," exclaimed Fenderson when he heard this old timer, "I'll spring that on the boarders tonight!" and he did. When they had all given it up, he exclaimed with pride and pleasure in his eyes, 'When it has its corset on—no; that doesn't sound just right either. But I'm sure it was something about corsets, and it struck me as pretty cute when I heard it."—Boston Transcript.

LAST CENTURY HIGHWAYMEN.

When They Went to the Scaffold, Titled Ladies Wept For Them.

The gentleman of the road was long the terror of the highway between Kensington and Knightsbridge. As late as the year 1799 a detachment of light horse was employed to patrol nightly from Hyde park corner to the former place Foot passengers waited until a party could be made up sufficiently strong for mutual protection, a bell being rung when a start was deemed prudent. An extract from Lady Cowper's diary in 1715 speaks volumes:

"I was at Kensington, where I intended to stay as long as the camp was in Hyde park, the roads being so secure by it that one might come from London at any time in the night without danger, which I did very often."

The romance which such writers as Ainsworth have given to the highwaymen is not so highly colored as may be supposed. During his brief term of office he was a man of note, the darling of the fair sex, the hero of play and ditty. He danced at Ranelagh and dined at the clubs with impunity, and when at last he became notorious enough to be worth apprehension he passed in triumphal procession from Newgate to Tyburn, dressed in the newest fashion, bowing gracefully to the windows, where ladies of position shed real tears of grief, and gayly quaffing a farewell cup with admiring friends of his own sex.

The courtly McLean—grocer and gallant—made Hyde park his chief scene of action. Here on a November night in 1749 he nearly put an end to Horace Walpole himself. That gentleman's coach was stopped by McLean and his accomplice, Plunket, as he was returning from Holland House. A pistol, accidentally going off, grazed the skin under his eye, and stunned him. "The ball went through the top of the chariot, and if I had sat an inch nearer to the left side must have gone through my head." But he freely forgave the fascinating scoundrel, when the law at last intervened.

He writes: "My friend McLean is still the fashion. Have not I reason to call him my friend? He says if the pistol had shot me he had another for himself. Can I do less than say I will be hanged if he is?" He gives an amusing description of the rush that was made to see the condemned man in Newgate. Three thousand people visited him in his cell on the first Sunday after the sentence, so that he fainted twice from the heat. The noble members of White's came in a body. Lady Caroline Petersham and other ladies of title wept over him and uttered broken words of comfort. "Some of the brightest eyes were at this time in tears."—Atalanta.

SUBDUING A TERROR.

The Intoxicated Woodsman Runs Up Against a Man From Bradford.

"I'm the best man on this train!" shouted an intoxicated woodsman as he swaggered into the smoking car at a little way station on the Buffalo, Rochester and Pittsburg.

"I'm the best man on this train!" he repeated, and smacked his fists fiercely.

As he repeated the assertion with additional emphasis a dude who was smoking a cigarette sneaked into another car and the other passengers wore a troubled look. But a man on a back seat, who lives in Bradford, walked up to the would be terror and said calmly:

"Stranger, you say you are the best man on the train. If that is the case, what's the use in making such a fuss about it? I think you are the worst man on the train—certainly the worst behaved. When I see a fellow acting like you are doing I set him down as a cowardly bully and a miserable, sneaking cur. Now sit down."

The terror had evidently received a serious setback, but he didn't like to appear to be too easily subdued. So he said:

"Think you are a better man than I am, do you?"

"I should hope so," said the other.

"You're a liar!" exclaimed the terror, and made a pass at him.

That is where he made the mistake. The gentleman from Bradford let go with his right and sent the fellow sprawling against the iron portion of a seat, cutting his head so that it required five stitches to sew up the gash. After he had recovered somewhat and began to realize what had happened he said:

"I didn't think the dashed thing was loaded."—Punxsutawney Spirit.

One of the oldest bridge "bents," or piers, in this country is to be found in Sonoma county, Cal. Two large redwood trees growing side by side support the timbers and rails of a bridge which crosses a small ravine or creek at a place where the roadbed is 75 feet above the water Californians refer to it as "the only natural wooden bridge in the world."—St Louis Republic.
